# What are values?

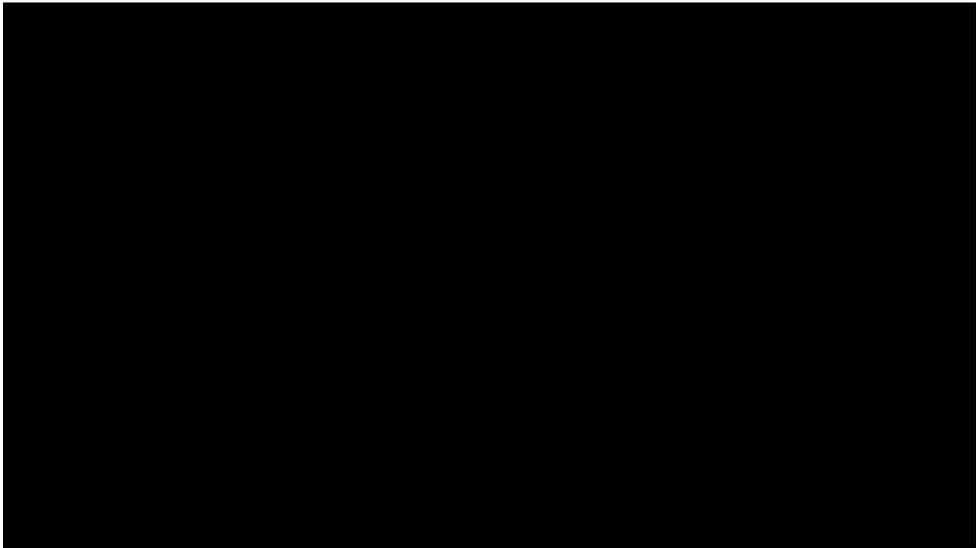

- **Values** are in our mind that guide what we do and say. Values are about what is *important/unimportant to us, right/wrong, good/bad or moral/immoral*.
- We can tell someone's values according to what s/he chooses to do and say.
- In other words, our own values are manifested in our choice of **actions** and **words**.

## S3: Perseverance

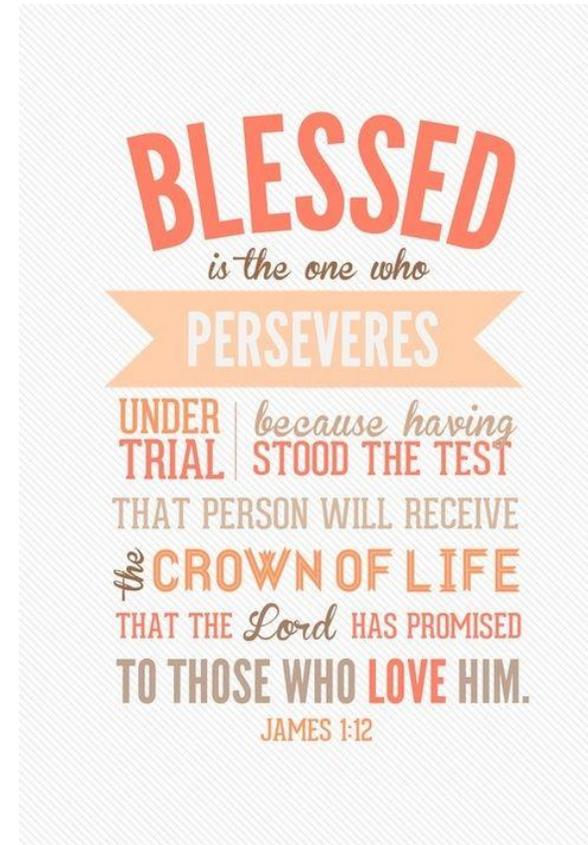

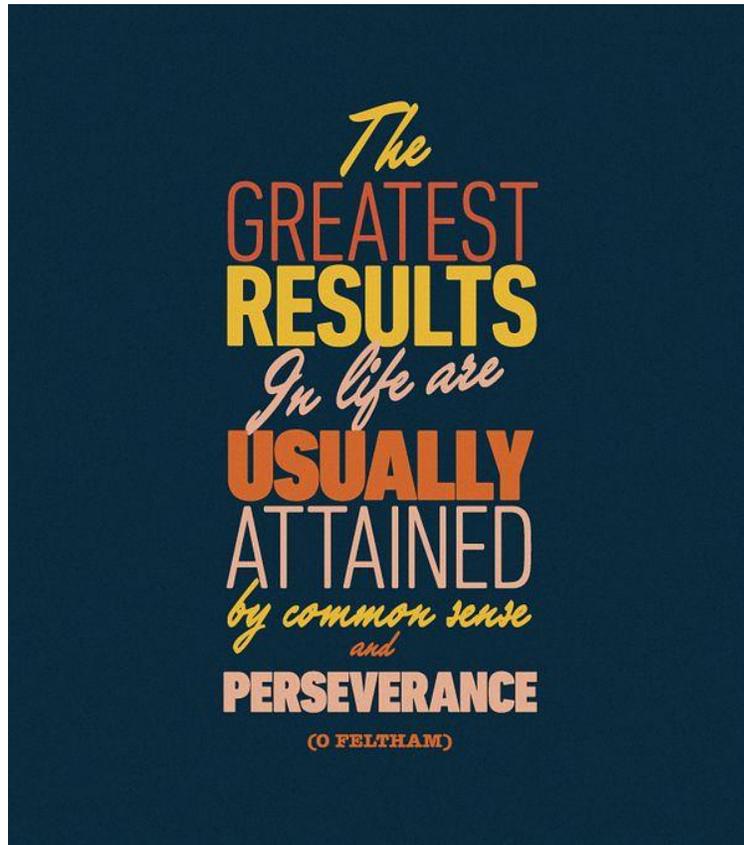

Students can **insist and do not give up** when coping with stress, adversities and failures and will adhere to their principles and strive in the face of hardship so as to demonstrate their positive values and attitudes
